### Parks

It is important to me that our parks and trails are well-maintained, easily accessible for everyone, and grow to connect neighborhoods. I also support implementing the upcoming Natural Resources Master Plan to further protect our parks.

### Strong Neighborhoods

As a member of the Planning Commission, I understand the importance of responsible zoning to maintain Roseville's character while also providing for affordable housing, supporting our existing neighborhoods, and protecting our environment.

### Public Safety

As a former EMT, I will continue to provide Police and Fire Departments with the funding and resources they need. I support the explorer and cadet programs to increase the number of firefighters and police officers.

### Responsible Finances

I support investing in our community while ensuring that our taxes are kept at reasonable levels. While funding ongoing city operations, my focus will be on investing in our infrastructure, including roads, parks, walkways, clean water, and public safety.
